

SPEED QUEEN® MULTI-HOUSING LAUNDRY SOLUTIONS

Electronic Control Washers & Dryers

 **Speed Queen.**
The Proven Performer in Laundry

We are the world's largest commercial laundry company, with an undeniable history of proven performance and reliability. Property owners rely on the practical ingenuity of features designed to make their lives simpler and more productive. Our commercial-grade construction is rugged, dependable and built to last.

As the commercial laundry industry leader, our valuable network of authorized laundry service providers is in place to provide you with the time and attention you deserve. Your local laundry service provider can assist you with laundry solutions for your property, including a space saving design, cost efficient equipment and business control systems.

Revolutionizing Laundry Room Technology

Commercially built Speed Queen® washers and dryers are heavy duty and energy efficient. With a simplistic design and attractive styling, the easy-to-use commercial control panel features a variety of cycle and temperature settings to assure the best laundering possible.

- **Unprecedented Control:**
Users can customize cycles by selecting between three wash temperatures, three spin speeds, three soil levels and pre-wash and extra rinse options.
- **Six Preset Cycles:**
Allows users to quickly select from the most common cycles, including an energy efficient Eco cycle.
- **Six Drying Cycles:**
Offers a wide variety of cycle selections for every load type and size.
- **Three Fabric Types:**
Choose from Regular, Perm Press, and Delicate.
- Commercial controls offer an easy-to-read digital display that allows residents to see how their load is progressing and ensure that machines turn over quickly.

Electronic Washer Control

Electronic Dryer Control

Built for Reliable Performance.

Front Load Washer

With revolutionary balancing technology, virtually imperceptible noise and vibration, incredible 440 G-Force extraction, Speed Queen® front load washers are engineered and built to be everything you never knew they could be.

- Revolutionary balancing technology redistributes and balances even the most unbalanced loads.
- Large door opening - extra wide 15.5" (394 cm) for easy loading unloading of clothes.
- Increased 440 G-Force extraction speed reduces drying times.
- 20% increase in capacity with improved water usage for maximum efficiency.
- Heavy-duty design features like a rugged suspension system, stainless steel wash tub and a dynamic balancing system to deliver long-lasting performance.
- Available in front or rear control.

Single Load Dryer

Speed Queen's® front control dryer, defined by its simplicity and performance, provides everything you need to get the job done – and nothing you don't. The single load dryer combines heavy-duty construction with reliable operation proven to stand the test of time. Our cabinet design maintains the perfect balance of heat, airflow and tumble action for optimal performance and efficiency.

- Durable galvanized steel cylinder with an extra-large 7.0 cu. ft. capacity.
- Secured and easy to clean upfront lint filter.
- Quiet, efficient blower system.
- Reversible door for installation flexibility.
- Available in front or rear control.

Top Load Washer

Speed Queen® top load washers are constructed from heavy-duty components to ensure an extended life, including a stainless steel wash tub, all-metal transmission and a commercial-grade cabinet finish.

- Commercial-grade stainless steel washtub.
- Curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results.
- Extract speed of 710 RPM spins clothes out drier.
- Advanced suspension system eliminates the possibility of an unbalanced load issue.

Stacked Washer-Dryer

Speed Queen's® stacked washer-dryers are designed to provide all the power of Speed Queen® washers and dryers while occupying only half the floor space of a conventional washer and dryer. The freestanding softmount design can be installed on all floor types or levels.

- Commercial-grade stainless steel wash tub standard.
- Increased 440 G-Force extraction speed reduces drying times.
- 20% increase in capacity with improved water usage for maximum efficiency.
- Durable galvanized steel dryer cylinder.
- Easy-to-clean and secure upfront lint filter.
- Revolutionary balancing technology automatically redistributes even the most unbalanced loads for consistent cycle times, minimized vibration and reduced noise.

Stacked Dryer

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen® stacked dryers. Combined with extra capacity for large loads, the stack dryer gets the maximum amount of work done without breaking the bank -- or your laundry design.

- Extra large capacity, 7.0 cu. ft. per dryer.
- 2.06 sq. ft. door opening is the largest in the industry, providing easy loading and unloading.
- 10° tilted control panel allows control visibility without bending down, improving the customer experience.
- High efficiency exhaust blower with superior airflow of 220 cfm.
- Durable galvanized steel cylinder
- Doors are reversible for installation flexibility.

Commercial product is not authorized for sale to Residential end consumers.
